Khamma Infra is a One top Company in the category Precast Compound Wall Manufacturers in India. This well-known establishment acts as a one-stop destination servicing customers both local and from other parts of India. Over the course of its journey, this business has established a firm foothold in it's industry. The belief that customer satisfaction is as important as their products and services, have helped this establishment garner a vast base of customers, which continues to grow by the day.

This business employs individuals that are dedicated towards their respective roles and put in a lot of effort to achieve the common vision and larger goals of the company. It is known to provide top service in the following categories: Concrete Compound Wall Manufacturers, Precast Compound Wall Manufacturers, Precast Boundary Wall Manufacturers.

INDUSTRIAL BOUNDARY WALL

We are one of the India's Best supplier and manufacturer of boundary walls offering you industrial boundary wall, readymade boundary walls and precast pre-stressed boundary walls in all over india with high quality. We also offer customization of walls in various sizes and designs as per the requirements of our clients.

These are widely used and are highly reckoned among our clients due to their superior finishing, long life and reliable nature. Moreover, these can be availed at industry leading prices. Additionally, we also assure to deliver our products in a fixed time frame.

FOLDING WALL

Everything is coming these days in mobile form; finally, we have got the mobile walls. These are called folding walls. They are thick panels joined to one another with hinges. Whenever or wherever you want a cubicle, a room or any other type of enclosure, you have the option to use folding walls. In addition to their ability to form a room or an enclosure, they make perfect sound proof environments. Since these folding walls are mounted on a track system, once installed they are like permanent walls, sturdily in place.

You have two types of tracks. The track could be either on the floor or set on the ceiling in order to hang the folding wall. The choice of the track system could be decided depending on where you are going to install your folding walls. Length of a folding wall could be easily adjusted due to the way the folding wall is designed.

It is better when you have the possibility to hang the folding walls on the ceiling because you will not need floor tracks. In case you are not able to do that, you have the possibility of having floor tracks. When it comes to folding glass walls this has to be the way as the folding glass walls are comparatively heavy.

SECURITY WALL

We are offering a wide range of security wall, Rcc Compound wall, Farm house compound wall and Agriculture land Compound wall in India. security fences/wall will also incorporate additional items on top such as barbed wire and razor ribbon to deter people from climbing over and entering facilities. The range that we offer is stringently tested on various parameters by our quality controllers to attain maximum level of client satisfaction.

AGRICULTURE LAND COMPOUND WALL

Have you seeking for cheap Compound Wall for your agriculture lands, whether you own the large acres or small acres of agriculture lands, our team is providing one of the cheapest Agriculture Land Compound Walls in India that too without compromising on the quality norms of the walls. We are building these offered compound walls with the superior quality of raw materials which gives the strong base and lasting capacity to our provided agriculture land walls

FARM HOUSE COMPOUND WALL

At the very economical prices, we khamma Infra is providing these Farm House Compound Wall which is well built up with the top quality graded cement and concrete bricks concurrently our compound walls gives the more shell life as its naturally more strong and fissure proof so it's best to choose our offered compound walls for your farm house for the long term strong basement at well again protection for your farm houses.

SOLAR POWER PLANT PRECAST BOUNDARY WALL

We are Well-Known Recognized in the industry as a manufacturer and supplier of solar power plant precast boundary wall in India. These offered walls are constructed using prime quality raw material that is procured from the sources of the industry. To ensure the quality, the provided solar power plant precast boundary wall is checked under the direction of our quality auditors. Our offered products are highly appreciated in the market for their high strength and dimensional accuracy.

RETAINING WALL

Retaining walls are a landscape structure that is generally based on a block system. These retaining wall blocks are installed using an interlocking system to form the wall structure. Retaining walls are usually made from stone, concrete, masonry, brick, steel or wood.

Retaining walls are built to form a structure to hold back soil or rock from any type of building or property. Retaining walls can be built for decorative appeal in landscaped gardens, but they are generally installed to prevent erosion, provide support for grade changes in land and to prevent down slope movement.

Stone retaining walls, brick retaining walls and wood retaining walls are still popular, however manufactured concrete retaining wall blocks have taken over the market. This is because being a manufactured product, it is more highly available and much more cost affective than other natural materials. This makes these blocks the preferred choice for both contractors and homeowners.

FENCING

We at Khamma Infra, are reckoned as an eminent manufacturer, trader and supplier of a wide range of products like Fencing Pole, RCC Fencing Pole, Cement Fencing Pole, Concrete Fencing Pole, Cement Pole etc. All these products are widely appropriated and demanded across the country. All our offered products are designed and manufactured in tandem with the guidelines and standards laid by the industry. To manufacture our wide range of products, we utilize optimum quality raw materials sourced from some of the leading vendors of the industry

BARBED WIRE FENCE

Barbed wire fence or even barb wire is a kind of fencing wire designed with prickly factors or sides placed in distances across the strings. It is utilized to develop economical fences and it is applied on top of wall space that encompass sheltered property. It's also an essential attribute within the defenses within trench combats by means of a cable barrier. A pet or an individual trying in order to surpass the barbed cable fencing will certainly experience anxiousness and most likely injury.

CONCERTINA COIL FENCE

When it comes to new industrial constructions, you cannot really ignore the importance of concertina coil fence. We are reckoned as the most eminent Concertina Coil suppliers based in India. We progress ourselves to promote skills and maintain technical viability to get the job done with expertise, motivation and creativity. In fact, over the years we have introduced many new products into the Indian market. We at Khamma Infra is one of the India's leading suppliers and manufacturers of concertina coil. If you want concertina coil fence installation done in your property, all you need is our professionals at your service.
